Doug,
As discussed, I will prepare a crosswalk of the Original and Revision A objections in the Order and get it to you before lunch on Tuesday.

We covered the other issues you had verbally, so no need to expound on those.

Phil,

We received it. I am just getting to it today. Though, after paging through it, I am not sure how to approach it. This does not appear to be the original RTC with edits to only those things that we objected to. Are you addressing other edits as well?

I see the section on e-page 9 where you note the EPA objection, explaining how you will address permit changes, but it doesn't point the reader to changes made to the SoB. I also see some highlights and red font throughout the document.

Can you provide some guidance to this document? In fact, for this quick review of your draft responses, it would be nice to just see those few previous responses that we called out in your 2013 and 2014 RTC, unless there are other responses that you needed to address.

Doug,

I just wanted to check and make sure the draft response to comments for the Hanford AOP made it to you. It was a semi-large file and I'm not sure if the EPA size filters grabbed it.
